

Global Internship Programme (GIP) 2009 - Application screening in progress

We are delighted to have received around 800 applications for GIP 2009. The application screening is in progress, and:

- For applicants completing Term 2 at CUHK: The results will be released in the week of Feb 16.
- For applicants currently having exchange studies: You will be invited to a phone interview in Feb, upon shortlisted in the paper screening.

Quick comments on the application forms received

Read the instructions!

In our case, applicants should complete the form in Acrobat Reader. Some of you have sent in handwritten forms instead! A number of you did not send in your academic report copies. In the real business world, such applications are often dumped.

Mind your spelling, grammar and presentation!

It would be more appropriate to put down your name as "Chan Tai Man" instead of "chan tai man" or "chantaiman". A better impression would be created if typos like "Adminstrion", "Accountantcy", "Engeering", "IETLS" and "TOFEL" can be avoided!

Attach the right files and double-check the application before sending out!

Some of you have attached the recommendation form, instead of the application form. A few of you have put down the wrong Student ID (e.g. 07123456 is wrongly written down as 08123456). There are even cases where the "Mobile" field is filled in as "Hong Kong"!
