Student Society Room Allocation Guidelines For the Period of 2025-2026

Main Principles

- Society room usage period: 1 September 2025 to 31 August 2026.
- The result of the application will be announced by mid-August 2025.
- Space and rooms are valuable with a limited supply. They are the University's properties.
- Societies are not guaranteed to have space or rooms in the University.
- The primary purposes of a society room are to provide a dedicated space for society committees to hold internal meetings, manage administrative matters and society operations, and to store necessary society assets or documents.
- Societies that have been previously allocated space or rooms do not automatically receive the same support and resources in the following school year.
- For societies with space or rooms in the current year, they are required to apply for resource allocation for the next school year.

Allocation Guidelines

1. Society Proposal (Prepared by the Society, 40%)

In the proposal, the Society is required to demonstrate clearly the following -

- How will having a dedicated society room benefit the society members and the wider CU students or CU community?
- Any special needs for the society room, e.g. society assets storing, regular performance practising?
- Summary of past society activities/ performances, along with any supporting photos.
- How will the society room be used to support the planned activities as referred to in the Year Plan?
- How does the Society envisage developing in 3-5 years?
- How would the Society maintain the assigned society room and keep it clean and organised?
- Other factors that the Society consider appropriate and valid to support the application.

Remarks: Identical to the proposals submitted in the last two years (if applicable) will have a negative impact on the evaluation of your society's application.

2. Nature of the Society (20%)

- Whether the nature and purpose of the Society contribute to the University culture.
- Whether Society needs a room to hold specific activities in the society room.
- The potential for collaboration between the Society and the University.

3. Number of Members (10%)

4. (For Current Tenants) Comply with the User Agreement of the Student Society Room (30%)

- Tidiness and cleanliness of the current society room.
- Maintenance of the current society room.
- Space occupied by the Society.
- Any conflict or complaint received from neighbours.
- Any violation of the Housekeeping Rules or Terms in the User Agreement.

OR

(For New Applicants) Special Needs for the Society Room (30%)

- Whether Society needs a room to keep and store specific equipment.
- Space occupied by specific equipment.
- Any new opportunities, insights and benefits to CU students or the CU community.

Total: 100%
